Clifton Beale

April 2023

Resume Cover Sheet

I am an eager, self-taught, front-end developer. I got out of the U.S. Air Force in January of 2022, and have since completed several online courses offered by Coursera and Codecademy following the path-work of a front-end web developer. I have learned a lot over the past year, and am excited to get my foot into the door and learn more. I have been fortunate enough to be accepted into an exclusive cohort of U.S. Veteran coders, '**[#VetsWhoCode](#)**' and from there have even created an online portfolio @ https://clifcodes.netlify.app to showcase some of my experience. Thank you so much for reading and your consideration.

EXPERIENCE

United States Air Force- Madison, WI— Integrated Avionics Technician (SrA)

March, 2018 - January, 2022

Key Highlights:

● Ran electrical diagnostics on F-16 jets to troubleshoot and make appropriate repairs to systems like pneumatic pressure, flight controls, radar threat warning, communication, and navigation.

● Supervised and educated new recruits on basic and advanced aircraft maintenance protocols and procedures.

● Routinely performed safe, on-the-spot, maintenance in stressful, time-sensitive, situations in order to ensure mission readiness.

Tech Support Representative - Remote - Liberty Tax

Nov, 2022 - Present

Key Highlights:

● Utilize a ticketing system to track tickets and correct the issues in the related ticket

● Interface into franchisee computers using Splashtop Remote Connection to assist with (including but not limited to): program installs, printer setups, and even general troubleshooting

● Ensure all franchisee's software programs were up to date and all packages were installed properly

EDUCATION

Google IT Support Professional Certificate

Eight-month IT support program, developed by Google, that covers troubleshooting, customer service, networking, operating systems, system administration, and security, and includes hands-on labs

Codecademy, Online

Attended online lessons for Full-Stack web development.I have completed several lessons, which can be seen in the awards section, each furthering my knowledge in HTML/CSS/JavaScript coding languages.

Coursera, Online

Currently enrolled in META's front-end web developer course. This specialization course consists of 9 courses, each teaching a different aspect of front-end web development. I have completed 7/9 of the courses, leaving only the interview preparation courses.

King's Fork High School - Suffolk, VA - High School Diploma

Cumulative GPA: 3.6
